Engineer Support

Contact

Contact Engineer ApS in Copenhagen by email or phone.

welcome@engineer.company +45 50 10 61 84 Copenhagen, Denmark

> This is the IT support address. What follows is about Engineer ApS as a whole, whose main trade is engineering; the work shown here is the support and the hardware.

Tell us about your project, ask a question or suggest a collaboration. Write to us at welcome@engineer.company or call +45 50 10 61 84 ; both reach us directly and we reply personally. Engineer ApS is based in Copenhagen and works with clients across Denmark and beyond. You will also find us on LinkedIn, on Bluesky, on GitHub, on Upwork and, in the fediverse, on Mastodon.

For a useful first conversation, tell us what you want to achieve, what is running today and any timing or delivery constraints. We clarify the task and agree the next step with you. Work begins after its scope, deliverables and billing basis are confirmed in writing; the price basis and terms are available to read before you contact us.

You can also follow us by feed rather than by account: RSS, Atom and JSON Feed all carry the full text of our notes and portfolio.

There is no contact form here, and that is deliberate: the email is the form.

And if you would rather not type any of it, point a camera at this and the whole card lands in your phone:

Give us a useful reference

Use a service or a piece of work as a reference when you write. It helps us understand the kind of result you have in mind.

Cases Get in touch →

A few details make a better brief

Send a short description of the current situation, the change you want and any important dates. You can keep sensitive material for an agreed channel.
